

TRIUMPH 

**BORN IN THE DIRT
BUILT FOR THE STREET**

**TRACKER
400**

THE TRIUMPH EXPERIENCE

Welcome to a world where the ride is not about the destination, but a space to explore, to express, and to discover.

Where every ride carries a sense of purpose, and every journey becomes something personal.

Triumph motorcycles are built around this idea, that riding is a feeling. It is about connection. Between rider and machine. Between instinct and response. Between where you are, and where you choose to go next.

Because when everything comes together in perfect balance, the ride becomes something more.

FOR THE RIDE

We are driven by the same pursuit as our riders, the search for the perfect ride.

A balance of power and handling, paired style that feels natural and exudes confidence.

Every Triumph is designed with this in mind.

Engineered to respond with precision. Built to feel effortless. Crafted to deliver a ride that stays with you, long after the road ends.

This is what defines us.

This is what drives us.

FOR THE RIDE.

TRACKER 400

FLAT-TRACK SPIRIT.

ROAD-READY PERFORMANCE.

Minimal in form, maximum in control. The Tracker 400 is built for precision and pure riding feel.
